

The core tools you use every day, without anything else to manage.

Most adult day software comes with more complexity than a smaller center needs: features you won't use, weeks of setup, configuration you don't have time for. **Seniorverse Lite is the core tools you use every day, with nothing else to manage.**

WHO IT'S FOR

Single-site social adult day centers with around 20 members or fewer: activities-focused programs that don't need billing, care planning, or medical record-keeping in their software, whether because they don't do them or handle them elsewhere.

WHAT'S INCLUDED

Digital member profiles

Notes, demographics, contacts, and uploaded files for every member in one place, reachable by your whole team from anywhere. No more digging through a filing cabinet.

Attendance

Check members in and out in seconds, right from a phone or tablet. Stop transcribing sign-in sheets at the end of the day.

Events calendar

Plan your activities once and share them with your whole team automatically. No more reprinting weekly schedules.

CACFP meal tracking

Log meals as they're served and pull the reports you need, without rebuilding them in a spreadsheet. Spend less time on CACFP every month.

Reports

Attendance, meals, and membership data ready the moment you need answers about your center. No spreadsheets required.

PRICING

\$250

 /mo

per center, per month

No setup fee

GETTING STARTED

You can be live in one week.

1

You complete our member template: your members and their contacts.

2

We review and load your data, and set up your center (meals, activities, benefit types).

3

Your team gets up to speed with training videos, plus live Q&A webinars twice a month.

The one-week timeline assumes we receive your member data promptly.

If you need more later

The full Seniorverse platform adds billing, care planning, medication & care records, transportation, and a family portal. Move up whenever it makes sense.
